Breach of Promise Case of Fannie Bradburn Against Edwin K. Alsman to Open in Court

WILL TAKE AT LEAST 2 DAYS

Motion for New Trial in Suit to Partition Late Ephriam Dale's Estate is Overruled

The breach of promise suit of Fannie Bradburn against Edwin K. Alsman is scheduled to start tomorrow in circuit court. The jury. has been called. This promises to be one of the big trials of the present term of court. Miss Bradburn demands the sum of \$5,000 for the alleged breach of marriage contract. The trial of the case is expected to take at least two days and some sensational evidence is expected to be introduced.

Judge Sparks this morning overruled a motion for a new trial in the partition suit of Ethel Geraghty against Oliver Dale, Madeline Avis TO PREPARE FOR CAMPAIGN Day and others. The original finding of the court granted the partition. It is expected that the case will go to the higher court.

The partition suit of Sanford Heaton, guardian of Earl Stewart against Lowell E. Stewart, Cleo DeHilla, Kelly DeHilla, W. O. Stewart and James W. Logan was dismissed and the costs paid. The plaintiff dismissed his complaint and then the defendant dismissed the cross-complaint and by agreement each party was to pay their own

The account suit of Mrs. Nina Lewis, administratrix of the estate of the late Dr. John G. Lewis, against Anna Ramsey, was dismissed by agreement at the costs of the plaintiff estate. The original demand was \$350.

The suit of Mary Oneal against Carl Oneal and Michael Oneal for support and a restraining order was dismissed by Mrs. Oneal at her

The court heard the petition asking for an order to sell real estate in the Riley Stewart estate this morning and ordered the land sold The suit was brought by William O. Stewart, as administrator of the estate of Riley Stewart, and was brought against the children of the late Mr. Stewart. The commissioners to make the sale have not been

Postoffice Force Sees Busy Week Ahead Because Christmas Mailing is Very Slow

SPEEDS UP SOMEWHAT TODAY

Persons Warned Again About Calling at Office for Packages-Will Not be Given Out

The final Christmas rush at the postoffice was expected to start today, if there is to be a rush. The receipts so far this year have been far below those of last year and if the record of previous years is to be reached the employees see a busy week ahead.

Previous to today there has been hardly any Christmas mailing at the local office. One official at the office stated today that the people had failed to heed the cry of mail early and as a result there was bound to be a grand rush at the finish.

The postoffice has made arrangements to handle the rush. A booth was placed in the lobby at which parcel post business will be handled. Washington, Dec. 18 .- "Nothing The office will be open Saturday

parcels in the office. The office will be closed at that hour Saturday night so that all packages may be dispatched on the 9:20 mail. It would be useless to hold the office open longer because here would be no other mails that would take parcels to their destination before Christmas.

The eight-hour law has been disregarded and the postoffice forces sees a week composed of fourteen hours of hard labor each day ahead. The same system which was, used last year has been established this year. Postmaster Hunt will sell the stamps. Patrons will step to the next window to the left where Tom Geraghty will sell the insurance tags and next in order is a counter outside in the lobby where Charles Brown weighs the packages and The increase, Scott stated, was throws them into the truck ready partly due to the fact that "one of for dispatching. The officials also repeated the order today that parcel post insurance tags will not be filled out by the clerks at the office. Patrons may call for the tags but must fill them in themselves.

Persons are warned against callng at the office for parcels as none will be given out. Postmaster Hunt believes he has the system which will give the people the best of service if the public will but cooperate with him.

A Woman's Fight

Tonight Tonight

"Forgive us our sins," the minister preached and the girl who heard him was stirred by the beauty of his text and by the vibrant compassion of his voice. Neither knew it but love was to come to these two. In "A Woman's Fight," the Pathe Gold Rooster Play, which the manager of the Gem Theatre will present tonight, Geraldine O'Brien is seen as the Girl and Thurlow Bergen as the Minister. It tells of a big love, the kind that comes only "Once to Every Man," of doubt that tries to strangle that love, of circumstances that aids doubt, and of persecution that aids circumstances; and then finally in scenes so big that the play is the only reality and nothing else matters, love comes to its own.

TONIGHT

Geraldine O'Brien, Broadway Favorite To be seen in "A WOMAN'S FIGHT"

A man is expected to sow his wild oats and then become a useful and respected member of societv. Will society let a woman live down a mistake? Is any punishment too great for a man who blackmails a very repentent and now thoroughly good woman for what she has done in the past? These are questions asked and answered in this Pathe Gold Rooster Play, "A Woman's Fight" which offers much that is ever popular with the photoplay public.

Urges People Not to Use Inflamma- Rushville is Given Tournament ble Materials in Decorating Christmas Trees.

(By United Press.)

Indianapolis, Ind., Dec. 18.— Christmas celebrations in Indiana during the last two years have not been marred by disasterous fires, although each year blazes were caused by Christmas tree decorations. In 1914, there were thirteen such fires and last year, fourteen.

State Fire Marshall W. E. Longley, in emphasizing the necessity for being careful during the holiday season, today gave the following 'don'ts to the United Press:

Don't decorate your Christmas trees with paper, cotton, or any inflammable material. Use metallic tinsel or other material.

Don't allow the children to light the candles or relight them.

Don't use temporary electric wiring on your tree. Unless the wiring is put in by an electrician and all changes made by him, it is never

Invitational High School Basketball Meeting Will be Staged in Rushville as Last Year

OFFICIALS HERE SATURDAY

Again and Track and Field Meet Goes to Shelbyville

A track and field meet was traded to the Shelbyville high school by the local school for a basketball tournament. Last year it was agreed! that Shelbyville should have the basketball tournament, which was held here and in turn Rushville was to get the track and field meet. At a meeting of the representatives of Greensburg and Shelbyville schools here Saturday with local officials it was decided again to hold the tournament here and the track meet wa awarded to Shelbyville.

The date for the basketball tournament was set for February 24. It is to be an invitational affair and it is hoped to have eight schools compete for the cup. Rushville, Greensburg and Shelbyville are the schools that are certain, and it is hoped to have Connersville, Newcastle and several other good teams here.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. YOUR DENTIFRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions-Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germ-laden tartar is present.

SENRECO, the recently discovered formula of a dental specialist, is two-fold in its action. First, it REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grit.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c. Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for liberal-sized trial package.

State Entimologist Says Nursery Stock Purchasers Are Protected by Law.

SOME AGENTS ARE CROOKED

Indianapolis, Ind., Dec. 18.-Frank N. Wallace, state entimologist, today advised purchasers of nursery stock to ask agents from whom they make their purchases, to show their licenses. Wallace explained that this insures purchasers from unfair agents or from buying a diseased stock.

Licenses cost \$1 each and are issued only after the agent has shown that he is honest and has a reliable stock. Since June 1, 1916, the state has issued 423 permits.

In pointing out the crooked practices followed by some agents, Wallace told of the arrest of one agent recently who had been selling peach trees grafted onto hickory trees to prevent cold weather killing the peaches.

Part of Activity of U. S. Public Health Service Devoted to This Annual Report Shows.

BLIND ARE BEING CURED

Less Than \$39,000 Spent in This One Phase and Over 40,000 Patients are Treated

Complete refutation of the claim that the government does not concern itself with the loss from preventable disease is contained in the annual report of the Surgeon General of the Public Health Service submitted to Congress, today. Activities ranging from the prevention and cure of blindness, scientific studies of pellagra, the protection of the health of industrial workers, the prevention of the introduction of typhus fever, investigations of child labor and health insurance, the eradication of communicable disease and the control of the pollution of navigable streams, are recorded and demonstrate conclusively that the national government is vitally concerned in the health of its citizens.

The most striking achievement of the year relates to pellagra, an affliction which in certain states destroys more lives than tuberculosis. Pellagra is no longer a disease of mystery as the Public Health Service has clearly shown that it is caused by a restricted diet and that it may be prevented and cured by means of a properly balanced ration. The practical application of this knowledge has already resulted in a material reduction in the prevalence of this affliction in all parts of the country and it is confidently believed that in another year even more marked improvement will be

In the eradication of trachoma, a contagious disease of the eyes frequently terminating in blindness, such marked success has been obtained that the methods followed, the converting of private residences into small hospitals and the holding of free open air clinics, have been adopted by the Egyptian government. During the year 1,700 persons were operated upon for the relief of partial or complete blindness, nearly 2,000 received hospital treatment, while more than 19,000 were treated at hospital dispensaries and clinics. When it is realized that a large proportion of these people were doomed to years of suffering terminating in at least partial blindness and that they have been restored to lives of usefulness, in some instances even being taken from county poorhouses where they had been public charges for the greater portion of their days, the importance of this most beneficent work can be imagined. The total cost of this undertaking, including the remodeling of buildings and every expense in connection with the feeding and care of patients, was less than \$39,000 for

Increased interest was shown by the government in the health of rural dwellers and Congress has recognized, by making an appropriation for studies in rural sanitation, that the welfare of the country resident is not to be neglected. During the past three years 80,270 homes in 15 different counties of 13 states were visited and complete sanitary surveys made of the premises. In every instance definite recommendations were given to remedy such evils as existed, as for example the pollution of wells, the presence of disease bearing insects and the improper disposal of exereta. In addition, 22,234 homes were revisited, mostly at the request of the owners, in order that the government agents could inspect the improvements instituted. Wherever this method of bringing the lessons of sanitation directly to the rural dweller has been followed a marked reduction has been observed in the prevalence of typhoid fever, hookwerm, malaria and other preventable diseases.

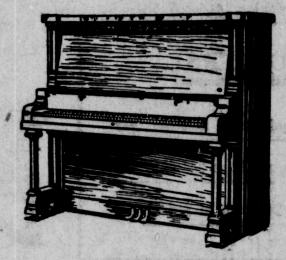

Attention has also been given to the health of the children of the nation, more especially to rural school children. Over 32,000 children attending the public schools were ex-

(By United Press.)

London, Nov. 27 .- (By Mail)-War Office, is one of the war's unique and lively institutions.

When love's dart stings the Britsh "Tommy," temporarily or otherwise, at one of his many ports of call in France or England, there's usually the girl he left behind him, "Tommy" is both a rapidly migrating and a most forgetful person, according to the officials who adminster Cupid's department in the big tone building in Whitehall. His 'last' girl is forever writing him letters and sending him packages which he probably receives but Then the doesn't acknowledge. girl writes to "Cupid' 'to find out what's happened to "Tommy." If "Cupid" answers that he is at present somewhere else and his writing arm is in perfect condition the "last" girl probably knows that his arder for her has cooled. Oftentimes, however, the "last" girl finds that she's still the "last" and finds her "Tommy" tucked, away in some hospital bed or perhaps among the sterner casualty lists.

The War Office scrupulously observes every request for information. Word is immediately communicated to "Tommy's" regiment whatever it is to see if he is still in the land of the living.

One girl is looking for two "Tommies." An Irish girl pathetically asks only to know how "he's" getting along. A Cockney girl in formed "Cupid's Bureau" that she hasn't heard "anythink" about him for three months and she's ready to do "anythink" to find out "somethink" about him. It's the same old tangled problem every day at "Cupid's Bureau."

Breach of Promise Case of Fannie Bradburn Against Edwin K. Alsman to Open in Court

WILL TAKE AT LEAST 2 DAYS

Motion for New Trial in Suit to Partition Late Ephriam Dale's Estate is Overruled

The breach of promise suit of Fannie Bradburn against Edwin K. Alsman is scheduled to start tomorrow in circuit court. The jury has been called. This promises to be one of the big trials of the present term of court. Miss Bradburn demands the sum of \$5,000 for the alleged breach of marriage contract. The trial of the case is expected to take at least two days and some sensational evidence is expected to be introduced.

Judge Sparks this morning over ruled a motion for a new trial in the partition suit of Ethel Geraghty against Oliver Dale, Madeline Avis Day and others. The original finding of the court granted the partition. It is expected that the case will go to the higher court.

The partition suit of Sanford Heaton, guardian of Earl Stewart against Lowell E. Stewart, Cleo DeHilla, Kelly DeHilla, W. O. Stewart and James W. Logan was dismissed and the costs paid. The plaintiff dismissed his complaint and then the defendant dismissed the pross-complaint and by agreement each party was to pay their own

Postoffice Force Sees Busy Week Ahead Because Christmas Mailing is Very Slow

Persons Warned Again About Calling at Office for Packages-Will Not be Given Out

The final Christmas rush at the ostoffice was expected to start today, if there is to be a rush. The receipts so far this year have been far below those of last year and if the record of previous years is to be reached the employees see a busy week ahead.

Previous to today there has been hardly any Christmas mailing at the local office. One official at the office stated today that the people had failed to heed the cry of mail early and as a result there was bound to be a grand rush at the

The postoffice has made arrangements to handle the rush. A booth was placed in the lobby at which parcel post business will be handled. The office will be open Saturday night until nine o'clock and next Sunday the clerks will deliver all parcels in the office.

The office will be closed at that hour Saturday night so that all packages may be dispatched on the 9:20 mail. It would be useless to hold the office open longer because there would be no other mails that would take parcels to their destination before Christmas.

The eight-hour law has been disregarded and the postoffice forces sees a week composed of fourteen hours of hard labor each day ahead. The same system which was used last year has been established this year. Postmaster Hunt will sell the stamps. Patrons will step to the next window to the left where Tom Geraghty will self the insurance tags and next in order is a counter outside in the lobby where Charles Brown weighs the packages and The increase, Scott stated, was throws them into the truck ready partly due to the fact that "one of for dispatching. An urgent request of the postoffice officials is that patrons mail their Christmas parcels before Friday because they figure that the last two days before Sunday the mails to transport without delay 1,00,000 will be congested and parcels will likely be delayed. The officials also repeated the order today that parcel post insurance tags will not be filled out by the clerks at the office. Patrons may call for the tags but must fill them in themselves.

Persons are warned against calling at the office for parcels as none will be given out. Postmaster Hunt believes he has the system which will give the people the best of service if the public will but cooperate with him.

A Woman's Fight

Tonight Tonight

"Forgive us our sins," the minister preached and the girl who heard him was stirred by the beauty of Forgive us our sins, the minister preached and the girl who heard him was surred by the plant compassion of his voice. Neither knew it but love was to come to these two. In "A Woman's Fight," the Pathe Gold Rooster Play, which the manager of the Gem Theatre will present tonight, Geraldine O'Brien is seen as the Girl and Thurlow Bergen as the Minister. It tells of a big love, the kind that comes only "Once to Every Man," of doubt that tries to strangle that love, of circumstances that aids doubt, and of persecution that aids circumstances; and then finally in scenes so big that the play is the only reality and nething else matters, love comes to six own. Calls Attention to Christmas Celebrations Marred by Fires That Could be Prevented.

ISSUES SEVERAL

Urges People Not to Use Inflammable Materials in Decorating Christmas Trees.

(By United Press.) Indianapolis, Ind., Dec. 18 .-Christmas eclebrations in Indiana during the last two years have not been marred by disasterous fires, although each year blazes were caused by Christmas tree decorations. In 1914, there were thirteen such fires and last year, fourteen.

State Fire Marshall W. E. Longley, in emphasizing the necessity for being careful during the holiday season, today gave the following "don'ts to the United Press:

Don't decorate vour Christmas trees with paper, colton, or any inflammable material. Use metallie tinsel or other material.

Don't allow the children to light the candles or relight them.

Don't use temporary electric wiring on your tree. Unless the wiring is put in by an electrician and all changes made by him, it is never

Don't place decorations near gas ets or lamps.

Den't have the tree placed so unecurely that the children can tip it

Don't use cotton to represent snow. If you must have snow, make it asbestos fibre.

Don't smoke in stores or in other public places during the holiday seaon. Decorations are easily set fire.

Don't leave matches where the night. children can experiment with them during the holiday season. Candles final game of the tournament last are meant to be lighted and if year when Rushville and Shelbychildren can get matches, they will ville battled. The game went overtry to light them.

Invitational High School Basketball Meeting Will be Staged in Rushville as Last Year

OFFICIALS HERE SATURDAY

Rushville is Given Tournament Again and Track and Field Meet Goes to Shelbyville

A track and field meet was traded to the Shelbyville high school by the local school for a basketball tournament. Last year it was agreed that Shelbyville should have the basketball tournament, which was held here and in turn Rushville was to get the track and field meet. At a meeting of the representatives of Greensburg and Shelbyville schools here Saturday with local officials it was decided again to hold the tournament here and the track meet waawarded to Shelbyville.

The date for the basketball tournament was set for February 24. It is to be an invitational affair and it is hoped to have eight schools compete for the cup. Rushville, Greensburg and Shelbyville are the schools that are certain, and it is hoped to have Connersville, Newcastle and several other good teams here.

Prof. Foland of Shelbyville and Prof. Wiley of Greensburg attended the conference here Saturday. Shelbyville has not the quarters for staging the tournament that this city has and it was on the motion of the Shelbyville officials that the tournament will be brought here. The tournament will be similar to the one held here last year. The games will start at nine o'clock in the morning and the final game for the championship will be played that

The fans have not forgotten the time and Shelbyville won by a margin of two points. The game was attended by the largest crowd witnessing a game in this city and the coming tournament should draw just as large a crowd. A new feaure will be tried this year. The officials of the games will pick two all-star teams from among the decated teams and these two will play the curtain raiser to the final game that night.

The next game on the schedule of the local team is with Franklin NIFTY ANKLE MAY DISAPPEAR at that place Friday night. Coach Masters promises the boys a hard work out this, week in preparation for this game. The Columbus game scheduled for Saturday night has

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly and drug-gists here are kept busy dispensing freezone, the ether discovery of a Cin-cinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid and feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the goreness is rolleved, and soon the corn is so sarriveled that it lifts out without pain. It is a sticky substance which dries when applied and never infiames or even irritates the adjoining tissue. ing tissue.

This discovery will prevent thousands of deaths annually from lockiaw and infection heretofore resulting from the suicidal habit of cutting corns.

-after you clean them.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. YOUR DENTIFRICE does not FULLY CLEAN! Loss of teeth is caused usually by one of two conditions—Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germ-laden tartar is present.

SENRECO, the recently discovered formula of a dental apecialist, is two-fold in its action. First, it REALLY CLEANS, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grit.

Avoid Pyorrhea and decay. Get Senreco from your dealer today. In large tubes, 25c. Send 4c to Senreco, 304 Walnut Street, Cincinnati, Ohio, for liberal-sized trial package.

We have moved from the old Bus Barn on South Morgan street to our new garage, back of the Masonic Temple.

Liquor Interests in Nebraska Will Make Last Stand in Coming Legislature.

SENATE IS SAID TO BE "WET"

(By United Press.) Lincoln, Neb., Dec. 18 .- With the convening of the Nebraska legislature's thirty-fifth session here Jan-

uary 2, interest will center on the wet and dry line-up and the legislative battle for laws to make effective the dry amendment passed by almost 30,000 majority at the recent election. The wets, realizing that prohibi-

tion would carry, centered their fight toward the last on winning enough members of the legislature to block, if possible, the passage of laws aimed to make prohibition effective.

in the house. In senate the majority of the members are personally wet, but of the thirty-three members, six a year. are known as "law-enforcements." These are men who before election admitted that they were personally not in favor of prohibition but would be governed as legislators by the verdict of the people on the prohibition amendment. These "lawenforcements" combined with the drys outnumber the out-and-out wets in the senate.

State Entimologist Says Nursery Stock Purchasers Are Protected by Law.

SOME AGENTS ARE CRÓOKĚD

Indianapolis, Ind., Dec. 18-Frank N. Wallace, state entimologist, today advised purchasers of nursery stock to ask agents from whom they make their purchases, to show their licenses. Wallace explained that this insures purchasers from unfair agents or from buying a diseased stock

Licenses cost \$1 each and are issued only after the agent has shown that he is honest and has a reliable stock. Since June 1, 1916, the state has issued 423 permits.

In pointing out the erooked practices followed by some agents, Wallace told of the arrest of one agent recently who had been peach trees grafted onto hickory trees to prevent cold weather killing the peaches.

Part of Activity of U. S. Public Health Service Devoted to This Annual Report Shows.

BLIND ARE BEING CURED

Less Than \$39,000 Spent in This One Phase and Over 40,000 Patients are Treated

Complete refutation of the claim that the government does not concern itself with the loss from preventable disease is contained in the annual report of the Surgeon General of the Public Health Service ubmitted to Congress, today. Actirities Tranging from the prevention and cure of blindness, scientific studies of pellagra, the protection of the health of industrial workers. he prevention of the introduction of yphus fever, investigations of child abor and health insurance, the eradication of communicable disease and the control of the pollution of 🚻 navigable streams, are recorded and 👿 demonstrate conclusively that the national government is vitally concerned in the health of its citizens.

The most striking achievement of the year relates to pellagra, an affliction which in certain states destroys more lives than tuberculosis. Pellagra is no longer a disease of mystery as the Public Health Service has clearly shown that it is caused by a restricted diet and that it may be prevented and cured by means of a properly balanced ration. The practical application of this knowledge has already resulted in a material reduction in the prevalence of this affliction in all parts of the country and it is confidently believed that in another year even more marked improvement will be

In the eradication of trachoma, a contagious disease of the eyes frequently terminating in blindness, such marked success has been obtained that the methods followed, the converting of private residences into small hospitals and the holding of free open air clinics, have been adopted by the Egyptian government. During the year 1,700 persons were operated upon for the relief of partial or complete blindness, nearly 2,000 received hospital treatment, while more than 19,000 were treated at hospital dispensaries and clinics. When it is realized that a large proportion of these people were doomed to years of suffering terminating in at least partial blindness and that they have been restored to lives of usefulness, in some instances even being taken from county poorhouses where they had been public charges for the greater portion of their days, the importance of this most beneficent work can be imagined. The total cost of this undertaking, including the remodeling of buildings and every expense in connection with the feeding and care of patients, was less than \$39,000 for

the year.

Increased interest was shown by the government in the health of rural dwellers and Congress has recognized, by making an appropriation for studies in rural sanitation. that the welfare of the country resident is not to be neglected. During the past three years 80,270 homes in 15 different counties of 13 states were visited and complete sanitary surveys made of the premises. In every instance definite recommendations were given to remedy such evils as existed, as for example the pollution of wells, the presence of disease bearing insects and the improper disposal of exercts. In addition, 22,234 homes were revisited, mostly at the request of the owners, in order that the government agents could inspect the improvements instituted. Wherever this method of bringing the lessons of sanitation directly to the rural dweller has been followed a marked reduction has been observed in the prevalence of typhoid fever, hookworm, malaria and other preventable diseases.

Attention has also been given to he health of the children of the nation, more especially to rural school children. Over 32,000 children attending the public collook were b

CHASE FOR LOST LOVES IS ARDENT ÉVEN IN WAR ZONE

(By United Press.)

London, Nov. 27 .- (By Mail)-'Cupid's Bureau," at the British War Office, is one of the war's unique and lively institutions.

When love's dart stings the Britsh "Tommy," temporarily or otherwise, at one of his many posts of call in France or England, there usually the girl he left behind him, 'Tommy" is both a rapidly migrating and a most forgetful person, according to the officials who administer Capid's department in the big stone building in Whitehall. His "last" girl is forever writing him letters and sending him packages which he probably receives but Then the doesn't acknowledge. girl writes to "Cupid' 'to find vhat's happened to "Tommy." "Cupid" answers that he is at present somewhere else and his writing arm is in perfect condition the "Inst" girl probably knows that his arder for her has cooled. Oftenimes, however, the "last" girl finds that she's still the "last" and finds 👪 her "Tommy" tucked, away in some hospital bed or perhaps among the sterner casualty lists.

The War Office scrupulously observes every request for information. Word is immediately communicated to "Tommy's" regiment whatever it is to see if he is still in the land of the living.

One girl is looking for two "Tommies." An Irish girl pathetically 🛂 asks only to know how "he's" getting along. A Cockney girl in formed "Cupid's Bureau" that she nasn't heard "anythink" about him for three months and she's ready to do "anythink" to find out "somethink" about him. It's the same old tangled problem every day at Cupid's Bureau."
